THE SOUTHERN TELEGRAPH COMPANY'S TROUBLE.-The employment of men by the Southern Telegraph Company to watch the poles of the company along the Washington road to prevent them from being cut down has been mentioned in the GAZETTE. It appears that the threat to cut the poles down was made by the Arlington Turnpike Company, which is owned by the Baltimore and Potomac Railroad Company, and it is said by many that the Western Union Telegraph Company is at the bottom of the whole matter. The Western Union Telegraph Company pays the Baltimore and McCaulklee, both colored, while at work Potomac Company so much per year for the ight of way along the Washington road. New York, yesterday evening, had been in-The Southern Telegraph Company has erected its poles along the road without paying, or even asking, for the privilege, and the Western Union Company has, so the story goes, informed the railroad company that unless the Southern Company is made to pay, it will decline to further comply with its contract; whereupon Mr. Wilkins, of the Baltimore and Potomac road, addressed a note to the managers of the Southern Company informing them that unless the poles on the Washington road were removed they George Leary for carrying coal oil without would be ou down. The Southern Company promptly declined to remove the poles | tary of the Treasury. and employed a force of men to protect them, believing that if the fort was held a certain time the right of way would be acquired. There are now about fifty men scattered along the Washington road watching the poles. It is not thought there will be any attempt on the part of the railroad men to cut the poles down. The railroad men are certainly very quiet, and, so far as can be seen, have made no provision to carry out the alleged threat. No one around the depot in this city seems to know or care anything about the presence of the bellige-rent forces on the Washington road. The whole thing seems to be regarded by the getting sober. employees of the company as a joke, and some of them say if the "watchmen don't want to get down with malarial fever they had better leave the Washington road. They'll be sorry they ever went there." However, it seems to be the opinion that the matter will finally get into the courts.

DEATH OF C. F. STANSBURY .- A dispatch was received here this morning announcing the sudden death at Hamilton, Va., of Mr. C. F. Stansbury, of this city, last night, from hemorrhage of the lungs. Mr. Stansbury left here only a few days ago for a visit to the country in apparently his usual health, and yesterday evening he gave a gentleman a letter to bring to his home here stating that he was well and was enjoying himself. Although having been in bad health for several years his early death, which will be sincerely regretted by a large circle of friends, was not thought of. He was only about 27 years of age, and was a member of the firm of D. R. Stansbury & Bro., stove dealers. He was a member of Andrew Jackson Lodge of Masons and Golden Light Lodge of Good Templars, having held the postion of Deputy of the latter lodge some time. A young man of sterling worth, he was held in high esteem by all who knew him. The remains were brought here this afternoon by Undertaker B. Wheatly, and were met at the depot by committees from Andrew Jackson and Can be seen by calling upon 0. W. HUNTT, esq. Golden Light Lodges, and escorted to the late home of the deceased, on Cameron street, from whence the funeral will take place.

A FORGERY.—The check mentioned in yesterday's GAZTTEE as having been received here, drawn in favor of Samuel Lewis for \$137, and bearing a signature purpoting to be that of George H. Robinson & Son, after investigation, has proved to be a genuine case of forgery. Mr R. A. Golden, of Washington, one of the endorsers of the check, was here this afternoon, and stated that the man calling himself Samuel Lewis brought the check to him with the statement that the \$137 was the amount due him by Messrs. Geo. H. Robinson & Son, of this city for grain shipped, from the lower Potomac on the 8th of July, and that he took the check, and after deducting for some goods and a bill due by a gentleman the man said was his uncle, paid him the balance. Mr. Golden, who is the loser by the transaction, further stated that he did not know the man. The forger is still at large, and the business public had better take notice and govern themselves accord-

Base Ball. -- A portion of a match game was played in this city yesterday between the Alexandria Base Ball Association and the Interior Department nine of Washington. The Interior Department nine played six innings and made seven runs. The Association nine had played five innings and made seven runs, and had commenced the sixth inning, with a runner on the third base and no one out, when the Interior nine declined to play further, claiming that it was too dark. The unpire decided that the game must go on, and allowed the Interior nine five minutes to recommence playing. After the five minutes had elapsed, and the Interior nine still refusing to play, the umpire declared the game in favor of the Association by a score of 9 to 0. The Alexandria Base Ball Association have played during the season twenty games, winning 13, and loosing 7, which is a good record. It is conceded by all that had the game been played out yesterday the Associa-tion would certainly have won by a good

THE CIRCUS.-S. H. Barrett & Co's. Circus performs in this city to-morrow and as a year has passed since a circus has visited Alexandria, its coming is awaited with considerable interest. Wherever this circus has exhibited, the papers speak most favorably of the performces, and a fine entertainment is promised the citizens of Alexandria. An exchange says: Its attractions are multifurious as well as novel, and it is a matter of surprise how many strictly new features can be crowded in a single exhibition. The street parade is commensurate in magnitude and grandeur with the exhibition, and introduces, among other attractions, thirty Arabian camels, decorated in the richest and most costly trappings, and mounted by native Mahomedans.

ROBBING GRAVES OF FLOWERS.—There is considerable complaint of the frequent robbery from lots and graves in the different cemeteries of this city, of flowers, &c. Mr. Wm. Zimmerman, whose three children died in one week a short time since, reports, that a few days ago he placed some flowers on the graves early in the morning and before twelve o'clock they had been carried off. He says that this is the second time flowers and other articles he has placed on the graves have been stolen. The law against such offences is very severe, and if the guilty parties are caught they will pay dear for their plunder. If they are fond of flowers that had better purchase them, for the risks are great.

WARD MEETINGS ORDERED, &c. - A meeting of the Conservative Committee was held last night, at which a resolution was adopted calling meetings in the several wards the city on Thursday night next to elect deligates to the democratic. The undersigned, PIONEER in the manufacture of FERTILIZERS in this city, and ORIGINATOR in 1858 of the formulas and processes of manufacture of Excelsior and Ammoniated Phosphate. So well and favorably known by the agricultural public, relying upon his experience and person all reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the farmers and planters of Maryland and Virginia, with the asset ance that the High Standard Quality of each will be maintained as heretofore.

BONE PER-PHOSPHATE AND LOAHOLLOWAY Franted Ger

The above are the most concentrated FERTILIZERS ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever-durable fertilizing properties of bones in fine,

dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, afterover twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other fertilizer or guano, therefore

fully 50 per cent cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and! superintending in person their manufacture, as for the past twenty-four years.

UNIFORM QUALITY IS GUARANTEED.

Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE prepared according to my original formulas, established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.
